## Skin/Integumentary System

What's the body's biggest organ?

---

---

---

---

---

---

---

## WHAT DOES IT DO?

- Protects our bodies
- Helps keep our bodies at just the right temperature
- Allows us to have the sense of touch

---

---

---

---

---

---

---

### CANNOT BE ELIMINATED!

The nerve endings in your dermis tell you how things feel when you touch them. They work with your brain and nervous system, so that your brain gets the message about what you're touching.
