

# Body Systems

## Student Project Page

The Human Body Management Association has decided that they must cut back on expenses. Therefore, they will need to eliminate one system of the human body. You must convince them that your assigned system cannot be eliminated! You will need to learn as much information as possible to support your case. Record evidence to support keeping your body system on the Body Systems Information Collection Grid. Then create a poster that will convince the Human Body Management Association to save your body system. Be prepared to present your evidence.

### Each poster must include:

1. functions of the system
2. reasons why the system cannot be eliminated
3. a diagram of the system

### Resources

Use books and the Body Systems websites linked to the pages at <http://www.tcmpub.com/urlUpdates>.

More resources can be found by using a search engine. Two choices include *Yahoo! Kids* ([kids.yahoo.com](http://kids.yahoo.com)) and *Ask for Kids* ([askkids.com](http://askkids.com)).

Key words for this lesson might include: *human body, skeletal system, muscular system, nervous system, circulatory system, digestive system, and respiratory system.*
